SKILLS

Frontend Development (HTML, CSS, JavaScript, TypeScript, React JS, Polymer JS, Windows Forms)

Backend Development (.Net Web API (C#), NodeJs, ExpressJs)

Source Code Management (Git, Github, Azure DevOps)

Database Management (SQL Server, MySQL, MongoDb, Firebase)

Soft Skills (Problem solving, Active listening, Adaptability, Innovation, Teamwork, Flexibility)

ABOUT ME

I'm a software developer with expertise in various programming languages such as HTML, CSS, JavaScript, TypeScript, C#, SQL and NoSQL. I have experience in building scalable, secure and reliable web and desktop applications using various frameworks and technologies from scratch. I enjoy solving complex problems and learning new skills. I am passionate about creating high-quality code that follows best practices and industry standards. I am always looking for new challenges and opportunities to grow as a developer.

WORK EXPERIENCE

AUG 2023
PRESENT

SOFTWARE DEVELOPER
Freelancer

• Developed customized software solutions from scratch using React JS/TS and backed with .Net Web API (C#) and MongoDb or SQL Server.
• Developed interactive websites and landing pages with integrated messaging capabilities using only HTML, CSS and JavaScript.
* Create build script using Gulp.Js.
* Manage Azure SQL Server, Google Cloud Firebase and Atlas MongoDb.
* Manage and deploy Docker (ASP.Net with React JS) to AWS EC2.
* Utilize Google Cloud Vision AI to convert image to text.

DEC 2017
AUG 2023

SOFTWARE DEVELOPER
Authentic System Solutions

• Maintain, add new features and fix bugs for an existing Windows Forms application.
• Enhance SQL Server query performance by implementing appropriate table indexing and crafting queries through the utilization of Stored Procedures.
• Manage Azure cloud SQL Server databases.
* Manage Google cloud Firebase real-time database, cloud storage, cloud hosting and cloud functions.
* Create bash script to automate the deployment of Node JS app to Heroku.
• Conduct mettings with the client to get their system requirements.
• Provide technical support for the client and the implementation team.
• Developed customized software solutions using Polymer JS with Firebase, MERN Stack or ASP.Net with React JS.

EDUCATION

2018

BACHELOR
Salazar Colleges of Science and Institute of Technology

• *Acquired robust knowledge in programming, network security, and software development methodologies.*
